

I am a resident of the San Antonio, Texas community and I would like my voice to be heard. The radio station K-LOVE has been a life-saver to myself and many others. I was recently in a suicide state of mind and a friend encouraged me to listen to K-LOVE Christian radio station, I am here to testify that what I heard on K-LOVE saved me from killing myself. The world is a hard and cruel place, the community as a whole benefits in so many ways from the encouragement, love and comfort that comes to us from listening to K-LOVE. I believe that the services provided by K-LOVE can only benefit the public's interest. It can do this by creating harmony, building trust, and achieving a sense of family between the community, thus; leading to a safer environment with better people. All I truly know is that the service that K-LOVE provides has changed my life for the better. The world is a safer place because of the good people and the service they provide thru K-LOVE!  
Thank you!
